

CAPABILITY STATEMENT

About Us

We are a 3-generation family business specializing in the manufacture of aircraft cable, wire rope, control cable & bungee cord assemblies. From prototype to production, we provide the services, capabilities & specifications you need under one roof. Whether it's a proprietary item, custom order or one-of-a-kind item, we provide the guidance and expertise to achieve the ideal fit, form and function for your project.

What Makes Us Different

- We have the expertise and resources to handle sophisticated large-scale projects, yet welcome simpler projects with the same professionalism and service.
- A technical sales team that is fluent in industry & government specs
- Low minimum order requirements & fast turnaround time
- Cable coating in-house
- In-house CNC Department
- In-house Die-Casting
- Who does Push-Pull Control Cables and bungee assemblies? We do.

Lord Corporation	Millennium Space Systems
Monroe PMP	Nasco Aerospace
Naval Station Kirkland	NSWC Carona, CA
Rock Island Arsenal	

What We Do

- Leading manufacturer of aircraft cable, wire rope, control cable and bungee cord assemblies
- Authorized distributor for domestic cable, hardware and tools
- Extrude coated cable in PVC, Nylon 6, Nylon 11
- Manufacture Custom CNC and Zinc Die-Cast Fittings
- Laser labelling and etching
- Cable swaging and crimping: Flemish Eye Swages up to 1-1/4"
- Pull-Testing/Proof Loading up to 180,000 lbs
- Distribution and Fulfillment
- Painting, Coating and Finishing
- Re-reeling Cable/Coiled Cables/Kits

The Lexco Advantage

- Our agile sales team collaborates with customers to provide customizable design support and prototyping
- All projects are supported by a team of talented Engineers that review and prepare technical drawings in compliance to customer requirements and industry specifications
- Our Production Teams are well-managed and efficient
- From FAI to production, our QC Team is vigilant to ensure that your order is uniform and within established tolerance.
- Shipping and Receiving verify material every step in the process to ensure product uniformity, packaging security & proper labelling.
- Lexco is committed to being at the forefront of this industry, staying current with equipment and technologies and engaging in best business practices to exceed customer expectation.
- Timely communication from initial inquiry, through production and after delivery is our company culture.
